

# CHARACTERISTIC 10 KHz WAVEFORMS

(All photos: 2V/div, 20usec/div)

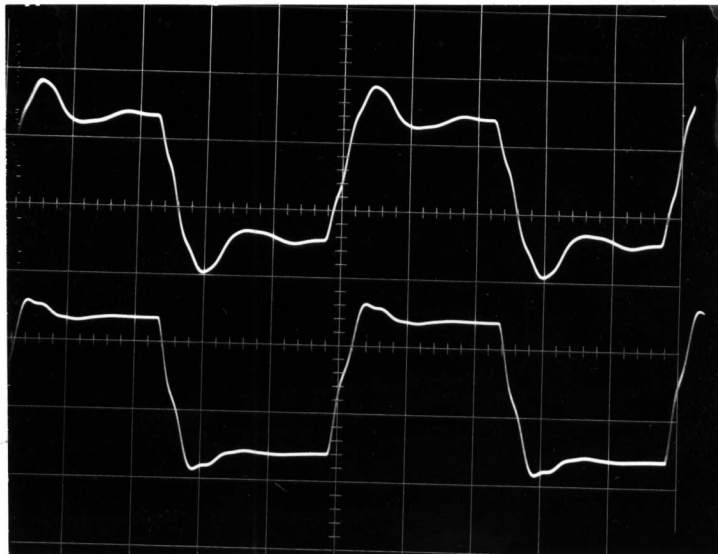

A - Essentially Flat.  
Ringing or other variations less than 5%. (Dynaco Z-565, 8 ohms)

B - Single Overshoot, slight undershoot, otherwise flat. (Harmon-Kardon Citation 2, 4 ohms)

C - Single Overshoot, trailing off without undershoot. (Peerless S-265-Q, 4 ohms)

D - Gentle Ringing, dying away within 50 usec. (Acro TO-300, 8 ohms)

E - Major, distorted ringing, does not die out in 50 usec. (UTC LS-52, 4 ohms)

F - Break in rise or fall, complex overshoot. (Harmon-Kardon 250, 8 ohms)
