This report is the property of the Radio Corporation of America and is loaned for confidential use with the understanding that it will not be published in any manner, in whole or in part. The statements and data included herein are based upon information and measurements which we believe accurate and reliable. No responsibility is assumed for the application or interpretation of such statements or data or for any infringement of patent or other rights of third parties which may result from the use of circuits, systems and processes described or referred to herein or in any previous reports or bulletins or in any written or oral discussions supplementary thereto.

ApprovedA handwritten signature in dark ink, appearing to read "Stuart W. Lee", is written over a horizontal line.

Circuit Diagram, RCA Developmental Color Television Receiver

If the Federal Communications Commission approves the proposed technical signal specifications, RCA Victor will proceed immediately to start production on a tri-color kinescope receiver similar in basic characteristics to the diagram shown in this bulletin.
