

TWIN GIANTS

It requires good audio transformers to take the output of the detector tube and add nothing but volume. And AmerTrans are real giants when harnessed to the task of transforming weak signals into clean-cut, enjoyable, loudspeaker entertainment.

Give the audio side of your set the consideration it deserves and use a pair of AmerTrans.

AmerTran is made in two types, one quality — A F 6 — Ratio 5:1 and A F 7 — Ratio $3\frac{1}{2}$:1.

Buy them by the pair!

Price either model \$7.00 at your dealer's.

Send for leaflet giving useful amplifier information.
