

The New Cunningham

HI-MU Amplifier

type CX340

*Five Volt
1/4 amp. Filament
Mu of Thirty*

The development of radio centers around the radio tube. In offering this new type we take another step forward in fulfilling the obligation of leadership.

With the advent of the CX-340, heights of efficiency heretofore unattainable in resistance and impedance coupled audio circuits are placed within easy reach of the radio world. This new Cunningham Radio Tube is especially designed for use in receiving sets employing resistance or impedance coupled audio frequency amplification.

Consult your dealer as to its proper installation or write us for the special CX-340 Bulletin.

Sixteen Types all in the Orange and Blue Carton
