

# DAVEN TUBES

## The Bridge To Amplification Without Distortion

Daven engineers were pioneers. They blazed the way for others to follow. They designed and built the first Resistance Coupled Amplifier offered the public. They found resistance coupling in an experimental stage. They perfected it.

Daven Resistance Units, Amplifier Kits and Super-Amplifiers are accepted by the foremost authorities in Radio as standard. The Daven Super-Amplifier, for use in any known set or circuit, is priced at \$15.00.

### A NEW TUBE BY DAVEN

To meet the exacting requirements of Resistance Coupled Amplification the Daven Radio Corporation has created a new product—the DAVEN HIGH MU VACUUM TUBE, Type MU 20. It is designed for one specific purpose only—to increase the amplification of the Daven Resistance Coupled Amplifier so as to exceed that of ordinary audio frequency coupling. *The Daven High Mu* is a 6 volt,  $\frac{1}{4}$  ampere tube with an amplification constant of 20. The price is \$4.00. *Daven Power Tube Type MU 6* is recommended for last or output stage. Price \$5.00.

*Daven products are sold only by good dealers*
